PROFESSIONAL SUMMARY

Aspiring Java Backend Developer with strong knowledge of Core Java, OOPs, JDBC, Servlet, DBMS, SQL, and RESTful APIs. Experienced in building full-stack web applications, implementing authentication systems, and developing scalable backend solutions. Passionate about software development and problem-solving, seeking an entry-level Java Developer or Software Engineer role to contribute to innovative projects and grow as a developer.

TECHNICAL SKILLS

- **Languages** : Java, JavaScript, C++ (DSA)
- **Frontend** : HTML, CSS, Bootstrap
- **Backend** : JDBC, Servlet, JSP, Spring Core, Spring Boot, Spring MVC, REST APIs, Hibernate, Spring Security
- **Database** : MySQL, MongoDB
- **Tools** : Git, GitHub, Postman

INTERNSHIPS

- **JPMorgan Chase & Co. (Forage) | January 2026 - March 2026**
 - Completed practical tasks involving Project Setup, REST API development, API controllers, Kafka integration, and backend system design.
 - Gained hands-on experience with backend application development, API design, and database integration.
 - Applied software engineering best practices in a simulated enterprise development environment.
 - Strengthened understanding of microservices concepts, event-driven architecture, and RESTful services.

PROJECTS

- **CloudContact** – Personal Contact Management System.
Tech Stack: Java, Spring Boot, Hibernate/JPA, MySQL, Thymeleaf, Bootstrap
 - Developed a full-stack contact management application using Spring Boot, MySQL, and Hibernate.
 - Implemented secure authentication and authorization using Spring Security .
 - Built CRUD functionalities allowing users to create, view, update, and delete contacts efficiently.
 - Designed a responsive user interface using Thymeleaf, HTML, CSS, and Bootstrap, while managing version control with Git and GitHub.**GitHub Repo:** <https://github.com/himanshusssingh/CloudContact>
- **RozgaarSetu** – A Skill Based Job Application Portal.
Tech Stack: MongoDB, Express.js, Node.js, Bootstrap, EJS
 - Developed a full-stack job portal that connects job seekers and employers based on skills.
 - Implemented secure user authentication and authorization using session-based login.
 - Developed REST APIs for job posting, job applications and profile management.
 - Managed database operations using MongoDB and Designed responsive UI using Bootstrap.**GitHub Repo:** <https://github.com/himanshusssingh/RozgaarSetu>

EDUCATION

- **BCA** | Deen Dayal Upadhyay Gorakhpur University | 2026
- **XII** (UP Board) : 78.4% | 2023
- **X** (UP Board) : 85.5% | 2021

ACHIEVEMENTS AND LEARNING

- Completed JPMorgan Chase Software Engineering Job Simulation on Forage, gaining hands-on experience with REST APIs, API Controllers, and backend development concepts.
- Completed a Couple of Full Stack Web Development (MERN) courses from APNA COLLEGE and Udemy.
- Solved 100+ coding problems on LeetCode, strengthening problem-solving and data structures fundamentals.
- Maintained an active GitHub profile showcasing projects, source code, and continuous learning initiatives.
- Familiar with API testing using Postman & Thunder Client.
