Himanshu Singh

Aspiring Java Backend Developer | Spring Boot | REST APIs | Full-Stack Development

+91-7307844118 | himanshusingh39397@gmail.com | linkedin.com/in/himanshusingh | github.com/himanshusssingh

PROFESSIONAL SUMMARY

Aspiring Java Backend Developer with a strong foundation in Core Java, OOPs, JDBC, Servlets, DBMS, SQL, and RESTful APIs. Hands-on experience building full-stack web applications, implementing authentication and authorization, and developing scalable backend solutions with Spring Boot and Hibernate. Passionate about problem-solving and continuous learning, seeking an entry-level Java Developer or Software Engineer role to contribute to impactful projects.

CORE TECHNICAL SKILLS

Languages	Core Java, DSA with Java, C++
Frontend	HTML, CSS, Bootstrap
Backend	JDBC, Servlet, Spring Core, Spring MVC, Spring Security, Hibernate, Spring Boot, RESTful APIs
Databases	MySQL, MongoDB
Tools	Git, GitHub, Postman, VS Code, IntelliJ IDEA

INTERNSHIP EXPERIENCE

JPMorgan Chase & Co. (Forage) — Software Engineering Job Simulation **Jan 2026 – Mar 2026**

Remote

- Completed practical simulation tasks covering project setup, REST API development, API controllers, Kafka integration, and backend system design.
- Gained hands-on experience with backend application development, API design, and database integration.
- Applied software engineering best practices in a simulated enterprise development environment.
- Strengthened understanding of microservices concepts, event-driven architecture, and RESTful services.

Stack: *Java, REST APIs, Kafka, Microservices, Backend System Design*

KEY PROJECTS

CloudContact — Personal Contact Management System

- Developed a full-stack contact management application using Spring Boot, MySQL, and Hibernate.
- Implemented secure authentication and authorization using Spring Security.
- Built CRUD functionality allowing users to create, view, update, and delete contacts efficiently.
- Designed a responsive UI using Thymeleaf, HTML, CSS, and Bootstrap; managed version control with Git and GitHub.

Stack: *Java, Spring Boot, Hibernate/JPA, MySQL, Thymeleaf, Bootstrap*

GitHub: github.com/himanshusssingh/CloudContact

RozgaarSetu — Skill-Based Job Application Portal

- Developed a full-stack job portal connecting job seekers and employers based on skills.
- Implemented secure user authentication and authorization using session-based login.
- Built REST APIs for job posting, job applications, and profile management.
- Managed database operations using MongoDB and designed a responsive UI using Bootstrap.

Stack: *MongoDB, Express.js, Node.js, Bootstrap, EJS*

EDUCATION

- BCA — Deen Dayal Upadhyay Gorakhpur University | 2026
- XII (UP Board) — 78.4% | 2023
- X (UP Board) — 85.5% | 2021

ACHIEVEMENTS & LEARNING

- Completed the JPMorgan Chase Software Engineering Job Simulation on Forage, gaining hands-on experience with REST APIs, API controllers, and backend development concepts.
- Completed Full Stack Web Development (MERN) courses from Apna College and Udemy.
- Solved 100+ coding problems on LeetCode, strengthening problem-solving and data structures fundamentals.
- Maintained an active GitHub profile showcasing projects, source code, and continuous learning initiatives.
- Familiar with API testing using Postman and Thunder Client.
